

BruteStorm Surge

Next-Gen Password Recovery Built for Forensics Specialists

As mobile encryption grows stronger, forensic investigations face increasing delays when device access is blocked by long or complex passwords. Traditional tools relying on slow, device-bound or CPU-based brute-forcing can't keep up.

BruteStorm Surge is MSAB's high-performance solution that uses the power of GPUs to unlock devices faster and safer. It's not device-bound, enabling password recovery in minutes instead of days, without risking device integrity.

- **Smart password mutation:** Build a specialized dictionary to instantly expand your wordlist with intelligent variations
 - **Adaptive cracking workflows:** Choose from multiple attack modes to match the complexity of your case, saving time and increasing success rates.
 - **Scalable performance:** Achieve faster results with linear performance scaling across multiple GPUs. This is ideal for labs with high workloads.
 - **Offline operation:** Performs password recovery without needing the mobile device to be connected, enabling secure, high-speed cracking on dedicated systems.
 - **Purpose-built for mobile forensics:** Fully supports Android FBE & FDE encryption formations and integrates seamlessly with XRY Pro.
- Get in touch with sales@msab.com to integrate BruteStorm Surge into your XRY Pro environment.

Recommended Specifications:

BruteStorm Surge only requires an additional GPU. MSAB recommends NVIDIA GeForce RTX 5090 for optimum performance.

Supported and tested GPUs:

NVIDIA GPUs with CUDA (or OpenCL)

- GeForce RTX 5090
- GeForce RTX 4090
- GeForce RTX 3090

Intel integrated GPU with OpenCL

System Requirements:

BruteStorm Surge system requirements are according to XRY Pro system requirements.

- Intel 9th Gen. Core i7 or above
- 20 GB space for installation
- 1 TB or more data storage
- 32 GB RAM
- 3 or more USB ports
- NVIDIA, CUDA v 11.8 GPU

For the full list of recommended specifications, see [MSAB.com/XRY](https://msab.com/XRY).

Product Package Overview:

Two (2) hours of consultancy to support initial setup and help build a customized system tailored to your needs

For customers without access to a GPU rig, our Professional Services team provides BruteStorm Surge as a service. Contact MSAB Professional Services to learn more.
